## Certification of Health Care Provider Family Member's Serious Health Condition

### To be completed by the district:

The Family Medical Leave Act (FMLA) provides that a district may require an employee seeking FMLA leave protections because of a need for leave due to care for a covered family member with a serious health condition to submit a medical certification issued by the health care provider of the covered family member. Employees may not be asked to provide more information than allowed under the FMLA regulations. The district will maintain records and documents relating to medical certification, recertifications, or medical histories of employee's family members, created for FMLA purposes, as confidential medical records in separate files from personnel files and in accordance with 29 C.F.R. § 1630.14(c)(1), if the Americans with Disabilities Act applies.

**To be completed by health care provider:**

The employee listed above has requested leave under the Family Medical Leave Act (FMLA) to care for your patient. Please answer, fully and completely, all applicable parts below. Several questions seek a response as to the frequency or duration of a condition, treatment, etc. Your answer should be the best estimate based upon your medical knowledge, experience and examination of the patient. Be as specific as you can; terms such as 'lifetime,' 'unknown' or 'indeterminate' may not be sufficient to determine FMLA coverage. Limit your responses to the condition for which the patient needs care. Extra space is provided, should you need it. Please be sure to sign the form on the last page.
