## Section 1: Introduction

Talented and Gifted (TAG) students are an important part of every school community across Oregon. In Oregon, districts and schools must plan for how they will meet the academic and social-emotional needs of TAG students, specific to their local context, and communicate these plans to the students and families they serve.

**District-level Talented and Gifted Education Plans serve as an integral communication tool to district educators, families, and community partners.** Districts are required to submit their TAG plans to the Oregon Department of Education (ODE) every year, provide copies upon request to schools within their district, and post a copy on their district website. (OAR [581-022-2500](#) (2)(a)(A))

Oregon laws that govern Talented and Gifted Education include both Oregon Revised Statutes (Oregon laws passed by the State Legislature, abbreviated as ORS) and Oregon Administrative Rules (requirements that are adopted by the State Board of Education to support Oregon Revised Statutes, abbreviated as OAR). Statutes provide legal definitions and broad guidelines specific to gifted education. The Oregon Administrative Rules outline the specific requirements districts implement to meet the minimum standards for identification, parents rights, and programs and services. Specific statutes and OARs are referenced throughout this TAG plan.

### ***Key Terminology***

**Talented and Gifted Students in Oregon:** Students who require special educational programs or services, or both, beyond those normally provided by the regular school program, in order to realize their contribution to self and society. These are students who demonstrate outstanding ability or potential in one or more of the following areas:

- (a) General intellectual ability (often referred to as, Intellectually Gifted).
- (b) Academic ability (often referred to as, Academically Talented) in one or more academic areas (including, but not limited to: reading, mathematics, science, and social science).
- (c) Creative ability in using original or nontraditional methods in thinking and producing.
- (d) Leadership ability in motivating the performance of others either in educational or noneducational settings.
- (e) Ability in the visual or performing arts, such as dance, music or art.

**Oregon Revised Statutes (ORS):** Oregon laws passed by the State Legislature.

**Oregon Administrative Rules (OAR):** Rules adopted by the State Board of Education to support statutes (ORS).

**Rate of Learning:** The pace at which the student is successfully progressing through instructional materials and experiences after being placed at the appropriate level. A student's rate will vary depending on subject, interest, level of difficulty and point in the learning process.

**Level of Learning:** The instructional level where the student will encounter new knowledge and skills. It involves depth and complexity in thinking.

**Historical reference of District TAG Plans:** House Bill (HB) 2180 (2011) and Senate Bill 486 (2021).

## **B. Implementation of Talented & Gifted Education Programs and Services**

The Culver School District Talented and Gifted Program enhances the educational experience for gifted students by focusing on the individual strengths of each student as a learner. Our program fosters creativity and innovative thinking in the development of self-directed and meaningful contributors in an ever-changing society.

The Culver School District Gifted Program will:

- meet students' individual needs
- enrich student interest and abilities
- foster communication between educators, parents, and students
- provide a curriculum with appropriate rigor, challenge, and choice
- encourage critical and creative exploration of ideas
- enrich and accelerate when appropriate
- recognize the social and emotional characteristics of the learner

Culver School District identifies talented and gifted (TAG) students according to Oregon Administrative Rule (OAR). TAG students in Culver demonstrate a pattern of exceptional ability, performance, or achievement. Identification decisions are based on a robust body of evidence that considers a child's background, experiences, and opportunities to learn.

Culver School District ensures that all students from all populations in the District have access to the TAG assessment process and, if identified, receive TAG services. Classroom teachers and counselors work together to help students find their passion and contribution to society.

Once students are identified, TAG services are provided by teachers accommodating the assessed levels and accelerated rates of learning of TAG students. The district has a TAG coordinator who provides support as needed and maintains communication between the school and families.

Key Questions	District Procedure
used to promote, rather than extinguish, eligibility)?	

**C. Portability of TAG Identification**

Key Questions	District Policy and Practices
<b>Does your district accept TAG identification from other districts in Oregon?</b>	Yes, our district accepts TAG identified students from other Oregon Districts.
<b>Does your district accept TAG identification from other states?</b>	If a student transfers into CSD and has documentation that shows previous TAG identification, and if the TAG documentation is consistent with Oregon state mandates, that student will automatically be considered TAG. If documentation is inconsistent with identification criteria, further data will be collected, and the identification process will be followed.
<b>Do local norms influence the decision to honor identification from other districts and states?</b>	No, see answer to previous question.

## Section 4: Instructional Services and Approaches

### A. Instructional Programs and Services for TAG Students

Instructional Programs and Services (OAR 581-022-2500)	Evidence and Explanation of Implementation: Grade Level and Content Area
Whole Grade acceleration	Schoolwide implementation
Advanceplacment	6-12 placement available for math, language arts, science, art, and music.
Independent learning plans	K-12 students are provided with a PLP at the start of each school years
Formative Assessment	Observed regularly in all classroom from grades 1-8
Subject acceleration	Determined by building. With Culver being one large campus, acceleration is done throughout all grades.
Advance Placement with differentiation of instruction	See the table below with course offerings
Differentiated instruction involving tiers of depth	6-8 (math, language arts, and science) 9-12 (math, language arts, music, art and science).

**D. Teacher’s Knowledge of TAG Students in Class**

Key Questions	District Procedure
<b>What procedures are in place to ensure classroom teachers K – 12 know who the TAG identified students are in their classrooms?</b>	Each teacher is provided with a PEP plan for the student. The TAG coordinator also provides a binder of PEP plans for building secretaries.
<b>What procedures are in place to ensure classroom teachers K – 12 know where they can get support if needed specific to the TAG services the district offers?</b>	A TAG coordinator is on site daily to answer any questions. Staff is also able to review policies and documents located on our district website.
<b>How do teachers determine rate and level needs for students in their classrooms?</b>	Teachers determine rate and level of needs for students with informal observations, assessment, prior PEP plans, and meetings with previous teachers.

**E. Instructional Plans for TAG Students**

Key Questions	District Procedure
<b>Are Personal Education Plans (PEPs) required or optional? At which grade levels are PEPs required?</b>	PEP plans are required at all grade levels. Staff review them at the beginning of the year, update plans, and conference on them. Parents, teachers and principals are provided with a copy.
<b>Are Instructional Plans required or optional? Which courses are required to have Instructional Plans?</b>	Instructional plans are required K-12 in all settings.

Key Questions	District Procedure
<b>How are families notified regarding the opportunity to discuss the PEP or IP designed for their student’s learning?</b>	Parents are provided a copy of their students PEP plan each school year. At any time parents can request a conference to discuss their students' plans.

## Appendix: Glossary

Term	Definition
<b>Acceleration (subject)</b>	Above grade-level standards and coursework. For example, a student who takes an advanced high school art class during middle school.
<b>Acceleration (whole-grade)</b>	Grade skipping. For example, a student who moves from 1st grade to 3rd grade (skips the 2nd grade).
<b>Acceleration (standards)</b>	Working ahead on grade-level standards (considerations include: pacing needs and demonstrated levels of mastery on certain grade-level standards). This often occurs within the grade-level course.
<b>Advanced Placement (AP)</b>	College-level coursework with common nationally-normed assessments. AP coursework alone does not meet the needs of all TAG identified students. Differentiated instruction is often implemented to ensure growth and appropriate cognitive demand.
<b>Choice Assignments</b>	A selection of standards-based learning options/projects based on student interest and/or development that includes depth and complexity to address both motivation to learn and cognitive demand.
<b>Cluster Grouping</b>	TAG identified students are intentionally placed together into mixed ability classrooms. The structure of this educational practice allows students to have peer-alike time together to address both academic and social-emotional needs.
<b>Credit by Examination</b>	Students receive high school or college credit based on mastery of prior learning as measured through end of course examinations. District policies, assessment formats, and requirements may vary. Please check your local district policy.

Term	Definition
<b>Curriculum Compacting (sometimes referred to as Compacted Curriculum)</b>	Honoring prior learning, typically measured through pre-assessments, by allowing students to skip lessons/standards where mastery has been met and providing opportunities to focus on standards in the current unit/curriculum that have not been mastered yet.
<b>Depth and Complexity</b>	A general framework to assess level of rigor specific to cognitive demand. Common frameworks include <a href="#">Webb's Depth Of Knowledge</a> (DOK) and Bloom's Taxonomy.
<a href="#">Depth of Knowledge (DOK)</a>	A framework developed by Dr. Norman Webb to assess the level of rigor for standards, projects, assignments, and exams.
<b>Differentiated Instruction (involving tiers of depth and complexity)</b>	Instruction and learning options designed to reflect the needs of students specific to current learning evidence/data that fosters academic growth. Educators may differentiate content, process, product, and environment to accommodate needs of learning.
<b>Flexible Readiness Grouping</b>	A strategic strategy designed to group students according to best fit instructional needs and student discourse opportunities.
<b>Formative Assessment as a Process</b>	Intentional teaching and learning practices in the classroom used by both teachers and students. Moment-by-moment evidence of student learning and thinking is used to inform and adjust teaching and learning. Descriptive feedback, established success criteria, and clear learning goals are essential.
<b>Independent Learning Contracts</b>	An agreement between student and teacher that outlines individual learning opportunities and outcomes for the student. This strategy is commonly used when a student has demonstrated mastery of a unit that is currently being taught (i.e. student has already read the novel that is being taught in a particular grade level)
<b>Instructional Plans (IPs)</b>	Communicates instructional strategies and services of how the teacher meets the needs of <i>all</i> TAG identified students in a particular course. Typically utilized at the secondary level.

Term	Definition
<b>International Baccalaureate (IB)</b>	College level coursework with common internationally-normed assessments. IB coursework alone does not meet the needs of all TAG identified students. Differentiated instruction is often implemented to ensure growth and appropriate cognitive demand.
<b>Kaplan's Icons of Depth and Complexity</b>	Icons/tools used to provide a visual prompt that promotes thinking from various perspectives, designed to achieve in-depth learning opportunities. Often used as a schoolwide program where all teachers, classroom support staff, and students are taught how to interact with and use the icons.
<b>Level of Learning</b>	<p>In reference to OAR 581-022-2500(3): The instruction provided to identified students shall be designed to accommodate their assessed <b>levels of learning</b> and accelerated rates of learning</p> <p>The student's instructional level in the curriculum and the place where the student will encounter knowledge and skills not yet learned or mastered. It is more than an advanced grade level. It involves depth and complexity in thinking.</p>
<b>Option Schools</b>	Students choose to attend schools in their district with learning options that best fits their academic and affective needs. Some districts have alternative school options, magnet schools, and option programs (school within a school model) specifically designed for TAG students. Not all districts provide option schools or programs in Oregon.
<b>Oregon Administrative Rule (OAR)</b>	Rules adopted by the State Board of Education to support statutes (ORS).
<b>Oregon Revised Statute (ORS)</b>	Oregon laws passed by the State Legislature.
<b>Personal Education Plans (PEPs)</b>	A plan developed by the teacher, TAG student, and family that outlines and communicates the programs and services received throughout the school year. Personal Education Plans are for an individual student and are more common at the elementary level.

Term	Definition
<b>Pull-Out Programs</b>	Students attend specialized instruction designed for TAG students, during school hours, at the school where the student is enrolled. Pull-out programs vary by district. Not all districts offer pull-out programs.
<b>Rate of Learning</b>	<p>In reference to OAR 581-022-2500(3): The instruction provided to identified students shall be designed to accommodate their assessed levels of learning and accelerated <b>rates of learning.</b></p> <p>Addresses the measure of the pace at which the student is successfully progressing through the curriculum after being placed at the appropriate level. A student's rate will vary depending on subject, interest, level of difficulty and point in the learning process.</p>
<b>Scaffolding or Tiered Instruction</b>	An instructional method that varies the level of learning (depth and complexity) of the assignment to provide all students an opportunity to engage in productive struggle and find success in academic growth.
